Who are we? The Edgmond Wildlife Group (EWG) was formed in the Spring of 2020. Residents came together to share their concerns about the environment and to do something locally. Some of us have a background in conservation but the common thread running through the Group is a desire to work with local people to make our environment better for wildlife and people.

What do we do? We are a 'hands-on' Group. We take on practical conservation projects in our local area. We want to inspire you to learn more about our wildlife and the environment. Help us to make Edgmond a wildlife-friendly place.

What do we believe in? By joining together, we can achieve great things – we can create a patchwork of wildlife-friendly areas across our Parish and start to join them up. If we make small improvements to our gardens, green spaces and the wider countryside this will help to develop an environment rich in wildlife.

Why join us? Everyone benefits from a healthy, green environment, rich in wildlife. Do you want to work with us to improve our local environment and help us develop a greater variety of different habitats in and around our village? Do you want to share the pleasure of watching local wildlife and develop your knowledge and understanding of the natural world?
